

# REx-PN Study Guide

2023

## Table of Contents

<b>Management of Care .....</b>	<b>9</b>
Advance Directives/Self-Determination/Life Planning.....	9
Integrating advance directives into client plan of care .....	9
Advocacy .....	9
Advocating for client rights and needs .....	9
Assignment, Delegation and Supervision.....	10
Delegating and supervising care of client provided by others .....	10
Organizing workload to manage time effectively.....	11
Case Management .....	12
Initiating, evaluating, and updating client plan of care .....	12
Client Rights.....	13
Providing education to clients and staff about client rights and responsibilities.....	13
Involving the client in the decision-making process.....	13
Collaboration with Interprofessional Team .....	14
Concepts of Management .....	15
Providing support and facilitates learning to new staff and health care students.....	15
Participating in conflict resolution.....	16
Confidentiality/Information Security.....	17
Maintaining client confidentiality and privacy .....	17
Continuity of Care .....	18
Providing and receiving hand-off of care (report) on assigned clients.....	18
Using approved abbreviations and standard terminology when documenting care .....	19
Performing procedures necessary to safely admit, transfer and/or discharge a client.....	20
Establishing Priorities .....	22
Prioritizing the delivery of client care.....	22
Ethical Practice.....	23
Recognizing ethical dilemmas and take appropriate action.....	23
Practicing in a manner consistent with a code of ethics for nurses .....	23
Assessing and developing professional competence .....	24
Informed Consent .....	25
Obtaining consent for nursing care and procedures and provide appropriate client education .....	25
Information Technology .....	25
Receiving and transcribing health care provider orders.....	25
Using resources to enhance client care.....	26
Legal Rights and Responsibilities .....	26
Providing care within the legislated scope of practice .....	26
Recognizing limitations of one's competence and seek assistance when needed.....	28
Reporting client information as required by law .....	28
Responding to the unsafe practice of a health care provider .....	29
Quality Improvement.....	29
Participating in performance improvement projects and quality improvement processes.....	29
Referrals .....	31
Assessing the need for referrals/consults and obtain necessary orders .....	31
<b>Safety and Infection Control.....</b>	<b>34</b>

<b>Accident/Error/Injury Prevention.....</b>	<b>34</b>
Promoting and educating clients on safety and injury prevention.....	34
Assigning appropriate rooms for cognitively impaired clients .....	37
Ensuring proper identification of client when providing care .....	37
Verifying appropriateness and accuracy of health care provider order .....	38
<b>Emergency Response Plan.....</b>	<b>38</b>
Participating in internal/external emergency response plans.....	38
<b>Ergonomic Principles.....</b>	<b>40</b>
Using ergonomic principles when providing care.....	40
<b>Handling Hazardous and Infectious Materials.....</b>	<b>41</b>
Following procedures for handling biohazardous and hazardous materials .....	41
Home Safety .....	42
Applying knowledge of client pathophysiology to home safety interventions .....	43
<b>Reporting of Incident/Event/Irregular Occurrence/Variance .....</b>	<b>43</b>
Identifying practice errors/near misses and intervene .....	43
<b>Safe Use of Equipment .....</b>	<b>44</b>
Safely and appropriately use equipment.....	44
<b>Security Plan .....</b>	<b>45</b>
Adhering to security procedures .....	45
<b>Standard Precautions/Transmission-Based Precautions/Surgical Asepsis .....</b>	<b>46</b>
Applying principles of infection control.....	46
Educating client and staff regarding infection control measures.....	49
<b>Use of Restraints/Safety Devices.....</b>	<b>49</b>
Following policies and procedures for use of restraints.....	49
<b>Health Promotion and Maintenance .....</b>	<b>52</b>
<b>Aging Process .....</b>	<b>52</b>
Providing care and education for the newborn, infant and toddler client from birth through 2 years .....	52
Providing care and education for the preschool, school age and adolescent client ages 3 through 17 years.....	53
Providing care and education for the adult client ages 65 years and over .....	54
<b>Ante/Intra/Postpartum and Newborn Care.....</b>	<b>55</b>
Providing prenatal care and education .....	55
Providing care and education to an antepartum client.....	56
Providing care and education to a client in labour.....	57
Providing postpartum care and education .....	57
Community Resources.....	59
Identifying and facilitate access to community resources for clients.....	59
<b>Developmental Stages and Transitions.....</b>	<b>60</b>
Assessing client's growth and development throughout the lifespan.....	60
Identifying barriers to communication.....	64
<b>Health Promotion/Disease Prevention .....</b>	<b>66</b>
Assessing client about determinants of health and implement interventions.....	66
Assessing client's readiness to learn, learning preferences and barriers to learning.....	67
Educating client about health promotion and maintenance recommendations .....	68
<b>Health Screening .....</b>	<b>68</b>
Performing preventative screening assessments.....	69
<b>High-Risk Behaviours.....</b>	<b>70</b>
Educating client about prevention and treatment of high-risk health behaviours .....	70

<b>Lifestyle Choices.....</b>	<b>71</b>
<b>Self-Care .....</b>	<b>73</b>
Assessing client ability to manage care in home environment and plan care accordingly .....	73
<b>Techniques of Physical and Psychosocial Assessment.....</b>	<b>74</b>
Nursing procedures for a client's physical assessment .....	74
Performing comprehensive health assessments.....	75
<b>Psychosocial Integrity .....</b>	<b>78</b>
<b>Abuse/Neglect .....</b>	<b>78</b>
Assessing client for abuse or neglect and intervene .....	78
<b>Behavioural Interventions.....</b>	<b>79</b>
Managing and support clients with emotional/behavioural issues.....	79
<b>Coping Mechanisms .....</b>	<b>81</b>
Assessing client's ability to cope with life changes and provide support.....	81
Assisting client to cope/adapt to stressful events and changes in health status .....	83
<b>Crisis Intervention.....</b>	<b>84</b>
Assessing the potential for violence/aggression and use safety precautions .....	84
<b>Cultural Awareness/Cultural Influences on Health .....</b>	<b>85</b>
Incorporating client cultural practices and beliefs when planning and providing care.....	85
Incorporate the use of Indigenous health knowledge.....	85
<b>End-of-Life Care .....</b>	<b>86</b>
Providing end-of-life care to clients.....	86
<b>Family Dynamics .....</b>	<b>87</b>
Assessing family dynamics to determine care plan .....	87
<b>Grief and Loss .....</b>	<b>87</b>
Providing care for a client experiencing grief or loss.....	87
<b>Mental Health Concepts.....</b>	<b>88</b>
Providing care of the cognitively impaired client .....	88
Providing care and support to clients with acute and chronic mental health disorders .....	89
<b>Religious and Spiritual Influences on Health.....</b>	<b>90</b>
<b>Sensory/Perceptual Alterations.....</b>	<b>91</b>
Providing care for a client experiencing sensory and/or cognitive distortions .....	91
<b>Stress Management .....</b>	<b>92</b>
Providing information to client on stress management technique .....	92
Recognizing nonverbal cues to physical and/or psychological stressors.....	93
Recognizing health care provider stressors that affect client care.....	93
<b>Substance Use and Other Disorders and Dependencies .....</b>	<b>93</b>
Assess client for substance misuse, dependency, withdrawal, or toxicities, and intervene .....	93
<b>Support Systems .....</b>	<b>94</b>
<b>Therapeutic Communication .....</b>	<b>95</b>
Using therapeutic communication techniques.....	95
<b>Therapeutic Environment.....</b>	<b>96</b>
<b>Physiological Integrity - Basic Care and Comfort .....</b>	<b>99</b>
<b>Assistive Devices .....</b>	<b>99</b>
Educating and assisting clients to compensate for a physical or sensory impairment.....	99

<b>Elimination.....</b>	<b>100</b>
Assess client elimination and intervene .....	100
<b>Mobility/Immobility.....</b>	<b>101</b>
Performing skin assessment and/or implement measures to maintain skin integrity .....	103
Implementing measures to promote circulation and venous return .....	104
<b>Non-Pharmacological Comfort Interventions.....</b>	<b>105</b>
Provide non-pharmacological comfort measures .....	105
<b>Assess client for pain and intervene .....</b>	<b>106</b>
Performing irrigations.....	107
Identifying.....	109
<b>Nutrition and Oral Hydration .....</b>	<b>109</b>
Monitoring the client's nutritional status.....	109
Providing enteral nutrition .....	113
Maintaining site care for client with enteral tubes .....	113
<b>Personal Hygiene .....</b>	<b>113</b>
<b>Postmortem Care .....</b>	<b>114</b>
<b>Rest and Sleep .....</b>	<b>115</b>
Assessing client sleep/rest patterns and intervening .....	115
<b>Physiological Integrity – Pharmacological and Parenteral Therapies.....</b>	<b>117</b>
<b>Adverse Effects/Contraindications/Side Effects/Interactions.....</b>	<b>117</b>
Drugs Administered for the Nervous System .....	117
Drugs Administered for the Cardiovascular and Urinary System .....	121
Drugs Administered for the Immune System .....	128
Drugs Administered for The Respiratory System .....	130
Drugs Administered for The Gastrointestinal System .....	132
Drugs Administered for The Endocrine System.....	133
Drugs Administered for the Integumentary System, Eyes, and Ears .....	135
<b>Blood and Blood Products .....</b>	<b>138</b>
Administering blood products and evaluate client response .....	138
<b>Expected Actions/Outcomes .....</b>	<b>140</b>
Evaluate client response to medication .....	140
<b>Medication Administration .....</b>	<b>142</b>
Calculations needed for medication administration .....	142
Pertinent data prior to medication administration .....	143
Administer medication by oral route.....	144
Administer medication enteral/gastrointestinal tube .....	144
Administer medication subcutaneous, intradermal or intramuscular medication .....	144
Administer medication by skin, ear, eye, nose, inhalation, rectum, vagina .....	144
Initiating, maintaining, and removing a continuous subcutaneous infusion.....	145
Titrating dosage of medication based on assessment and ordered parameters .....	145
<b>Parenteral/Intravenous Therapies.....</b>	<b>146</b>
Accessing peripheral venous access devices .....	146
<b>Educating the client on the reason for and care of a venous access device .....</b>	<b>146</b>
Appropriate veins that should be accessed for various therapies.....	146
Monitoring intravenous infusion and maintain site .....	147
Educating client on the need for intermittent parenteral fluid therapy .....	147
Calculating and monitor intravenous flow rate .....	147
<b>Pharmacological Pain Management Devices.....</b>	<b>148</b>

Maintaining pain control devices .....	148
<b>Total Parenteral Nutrition (TPN).....</b>	<b>149</b>
Administering parenteral nutrition and evaluate client response .....	149
<b>Physiological Integrity – Reduction of Risk Potential.....</b>	<b>152</b>
<b>Changes/Abnormalities in Vital Signs .....</b>	<b>152</b>
<b>Diagnostic testing.....</b>	<b>153</b>
Performing diagnostic testing.....	153
Monitoring the results of diagnostic testing and intervene .....	155
Obtaining specimens other than blood for diagnostic testing .....	155
<b>Laboratory Values .....</b>	<b>156</b>
<b>Potential for Alterations in Body Systems .....</b>	<b>159</b>
<b>Potential for Complications of Diagnostic Tests/Treatments/Procedures .....</b>	<b>162</b>
<b>Evaluate responses to procedures and treatments and intervene .....</b>	<b>163</b>
Inserting a nasal/oral gastrointestinal tube.....	166
Removing a nasal/oral gastrointestinal tube.....	167
Monitor continuous or intermittent suction of nasogastric (NG) tube .....	167
Inserting/maintaining or removing a urinary catheter .....	167
Inserting a peripheral intravenous line.....	168
Maintaining or removing a peripheral intravenous line.....	168
Maintaining percutaneous feeding tube .....	168
<b>System Specific Assessments.....</b>	<b>169</b>
Perform focused assessments .....	169
Abnormal peripheral pulses after a procedure or treatment.....	169
Abnormal neurological status after a procedure or treatment.....	169
<b>Therapeutic Procedures .....</b>	<b>173</b>
Educate client about treatments and procedures.....	173
Providing preoperative care .....	174
Monitoring a client after a procedure with moderate sedation .....	174
<b>Physiological Integrity - Physiological Adaptation.....</b>	<b>176</b>
<b>Alterations in Body Systems .....</b>	<b>176</b>
Invasive Procedures .....	176
Maintaining optimal temperature of client.....	176
Monitor and maintain devices and equipment used for drainage .....	176
Perform suctioning (oral, tracheal, nasopharyngeal) .....	178
Perform wound care and/or dressing change .....	180
Wound drainage device removal.....	180
Removing wound sutures or staples .....	180
Provide ostomy care .....	181
Providing postoperative care.....	181
<b>Fluid and Electrolyte Imbalances .....</b>	<b>182</b>
<b>Hemodynamics .....</b>	<b>183</b>
Managing the care of a client with a permanent pacing device.....	185
<b>Illness Management .....</b>	<b>186</b>
Educating clients regarding an acute or chronic condition .....	186
Managing the care of a client with impaired ventilation/oxygenation .....	186
<b>Medical Emergencies .....</b>	<b>189</b>
Performing emergency care procedures .....	189

<b>Pathophysiology .....</b>	<b>193</b>
<b>Unexpected Response to Therapies.....</b>	<b>194</b>
Recognizing signs and symptoms of client complications and intervene.....	194

# MANAGEMENT OF CARE
